Tournament Host

Who is VEPAC? VEPAC (Virginia Engineers Political Action Committee) is a statewide, non-partisan, non-profit political action committee (PAC) created by the Virginia Society of Professional Engineers (VSPE) and the American Council of Engineering Companies of Virginia (ACEC/VA).

What is VEPAC? VEPAC supports political candidates who fairly and adequately embrace positions that foster a healthy engineering community in Virginia. Funds support the election of candidates running for the Senate and the House of Delegates. VEPAC solicits and accepts voluntary contributions from individuals and businesses who support engineering issues addressed in the General Assembly and State government. Contribution decisions are made by the VEPAC Trustees.

Why VEPAC? VEPAC works to protect and promote the interests of Professional Engineers (P.E.) and engineering companies in Virginia's political arena. We help open doors and provide face time with candidates and incumbents. Other interest groups have agendas that run counter to the interests of Professional Engineers and engineering companies. If given the opportunity, they may encroach on the practice of engineering. A strong VEPAC provides the engineering industry a stronger voice with elected State representatives.

Help us to ensure a strong presence of the engineering profession in legislative activities. Contributions are voluntary and are not a membership requirement in ACEC/VA or VSPE.
